ATTACHMENT A
TO
APPLICATION TO CHANGE POINT OF DIVERSION
AND PLACE OF USE OF A PORTION OF
PERMIT 10757, CERTIFICATE 2882

The original Permit 10757 allows 0.01 CFS. No limiting statement can be found on the Permit or in the records. Therefore, it can be reasonably determined that the duty allowed by the permit is a total of 7.24 AF/yr. The original permit states taht the number of acres to be irrigated is "one". The Proof of Beneficial Use Map indicates that the total land irrigated is 0.84 Acres. The Certificate states that the lands to which the water is appurtenant is 1.0 Acres in the SW1/4 NE1/4 Section 6, t. 21 S., R. 61 E., MDM.

Based on the above, it is apparent that the duty allowed under this permit is 7.24 AF/Acre.

The transfer sought under this Application to Change is 3.0 AF/yr. Therefore, the amount of land to be removed from irrigation at the existing place of use and to be placed under irrigation at the new place of use is calculated to be

$$3.0 / 7.24 \times 1.0 \text{ Acres} = 0.414 \text{ Acres}$$

The total amount of water to be changed is 0.00414 CFS.
